

Leah John

PRODUCT DESIGNER

Design is not just what it looks like, but how it works. Welcome to my world, where I blend creativity and functionality to craft visually captivating and user-centric experiences.

Projects

Lampshade

- Design for a chosen space, keeping in mind the desired ambience and experience.
- Form and Material exploration project.
- Used weaving technique utilizing two different types of sheets.

Library Service

- Improved the institute library service by detailed research and problem identification.
- Designed mobile application for better accessibility to library portal.

Flexible Desk Organizer

- Flexible organizing furniture accessory for work desk
- Designed for users of a particular organizing style unable to keep their desks efficiently organized for long.
